

FOUR KILLED;
MANY INJUREDDISASTROUS WRECK ON WABASH
IN INDIANA.

Train Struck Broken Rail While
Running Sixty Miles an Hour and
Seven Coaches Plunged Down
Thirty-five Foot Embankment.

Danville, Ill., March 7.—Two
seventy-six injured, several of them
seriously, tell the story of havoc
among the passengers of Wabash
Train No. 1, the Continental Limited,
westbound, which was wrecked two
miles west of West Lebanon,
Ind., this afternoon at 5:20.

Because of the destruction of the
railroad wire communications at the
wreck, it was some time before it
was reported, and still greater time
elapsed before the seriousness of the
accident was realized.

After rounding a long curve and
when about 150 feet from a small
trestle just beyond, the train struck
a broken rail. The engine kept the
track, but the entire string of seven
coaches left the rails, not parting
company with the engine, however,
until just before the bridge was
reached, when two Pullmans, diner,
day-coach, combination baggage and
smoker, express and mail cars left
the right of way.

Mother Dead; Baby Safe.
Mrs. U. G. Good, who boarded the
train at Fort Wayne, for St. Louis,
was killed, her back having been
broken, the ten months old babe in
her arms escaping injury.

Another woman, a Mrs. Grant, was
killed. The bodies were brought to
an undertaking establishment in this
city. A relief train from Danville
carried the injured to this city, leav-
ing the scene of the wreck about 8
o'clock.

The train was running at the rate
of 60 miles an hour, when it struck
the broken rail and the cars after
leaving the track plunged down a
35-foot embankment, all turning
over, with the exception of the mail
car, which landed right side up,
some 250 feet from the right-of-way.
The express car was crushed like
an egg shell, the express messenger
escaping, however, with a slight in-
jury to his right leg.

Physician Imprisoned.
Dr. W. H. Moorehouse of Danville,
chief surgeon of the Wabash, was
imprisoned in the overturned Pull-
man until nearly 10 o'clock, when
relief workers with saws and axes
forced their way into this car. The
surgeon sustained injuries about his
head and face and abdomen and is
injured internally.

Three wreck ruins, one from Til-
ton, Ill., and one each from Lafay-
ette and Peru, are on the scene try-
ing to liberate the passengers and
travellers who are believed to be
trapped beneath the debris of the
wreck. Officials from Lafayette ar-
rived at the scene on a special train
and are lending all possible assist-
ance. Many physicians from nearby
towns, Lafayette and Danville, are
on the scene. One child is reported
missing and it is feared it has been
killed in one of the coaches.

Narrow Escapes.
Albert Leins of this city, was
seated with Mrs. Good in the day
coach when the crash came, and
after he had extricated himself from
the debris he assisted in removing
the woman's body and caring for
her infant.

Express Messenger Edward Back
of Detroit, was in the express car,
which was completely destroyed
than any other coach and escaped
with a severe cut on his head. He
was the only man in the car and ex-
tricated himself from the mass of
kindling wood.

Searching Debris.
At midnight the three wrecking
crews were still at work searching
the debris and repairing the track.
It was hardly thought possible that
so few were completely destroyed,
considering the speed of the
train and the completeness of
the wreck of the day coach, which
was crowded. It was in this coach
that the four bodies were found,
and every one of the other
passengers were injured. Late word
from the wreck stated that the offi-
cials intended moving every piece of
the wreckage in search of possible
dead or injured persons. Up to 12
o'clock none had been found.

WILLING FOR PRIMARY

Woodrow Wilson Ready to Submit
His Candidacy to Democrats
of the Country.

Washington, March 7.—Presiden-
tial preference primaries to deter-
mine the popular choice for the
Democratic nomination, were en-
dorsed to day by William F. Mc-
Combs of New York, campaign man-
ager for Governor Woodrow Wilson.
In a statement issued here, Mr. Mc-
Combs said Governor Wilson would
be willing to submit his candidacy
to that test.

The announcement from Mr. Mc-
Combs followed discussion of the
alleged combination of Speaker
Clark, Governor Harmon and Oscar
Underwood against Governor Wilson,
the report of which was character-
ized recently by Speaker Clark as a
"malicious lie."

"To remove any danger or suspi-
cion of such an arrangement," Mr.
McCombs said, "I would suggest a
presidential primary (in every state)
whether Governor Wilson win or
lose the primary plan would allow
the Democrats to name their own
leader and he is willing to abide by
the sovereign and authenticated ver-
dict of the organized Democracy of
this country as expressed by indi-
vidual Democrats in a primary elec-
tion."

President Law Desires Commission
to Interpret Sherman Anti-Trust
Law—Reforms in Legal Proce-
dure Advocated.

Washington, March 7.—A commis-
sion to interpret the Sherman anti-
trust law similar to the interstate
commerce commission was proposed
by its President Seth Low at the
closing session of the annual con-
vention. A bill which will be drafted
and presented to congress, would
give to the proposed commission,
power to inquire into a combination
of proposed combinations, and pass
upon their legality, but granting the
right of appeal to the courts as un-
der the interstate commerce act.

Reforms in legal procedure was
advocated by Owen Miller of Mis-
souri, a representative of organized
labor, and others.

"Nine-tenths of the law cases to
day are decided by technical dis-
cussion in the eyes of the court,"
Mr. Miller said. He told of cases
which had been decided on trivial
technical points, including the es-
cape from the penitentiary of a con-
victed man on account of the mis-
spelling of his name in an indict-
ment.

Faith Williams, secretary of the
department for the regulation of cor-
porations, defended the Sherman
anti-trust law as just and workable.
The women's department was ad-
dressed by Mrs. John Hayes Ham-
mond, Mrs. Robert S. Chew, Mrs.
Medill McCormick, Mrs. Francis Mc-
Neill Bacon, Jr., Mrs. Robert W.
Wright and Miss Wetmore, daughter
of Senator Wetmore of Rhode Is-
land.

The department held a reception in
the afternoon at which Mrs. J. Ber-
den Harriman and Mrs. Linden
Bates of New York and Mrs. Caroline
B. Crane, of Kalamazoo, Mich.,
spoke.

The present officers of the feder-
ation were re-elected. The National
Association of State Boards of Medi-
tation and Arbitration at its annual
meeting held to day in connection
with the civic federation, elected the
following officers:

President—Frederick Bogue, Ma-
chias, Maine.

Vice president—W. G. Ashton,
Oklahoma City.

Secretary-treasurer—William Cro-
ss, Albany.

MILL INVESTIGATION

Inquiry of American Woollen Com-
pany Recommended to Congress
by Committee.

Washington, March 7.—An investi-
gation of the American Woollen com-
pany, it was reported tonight, would
be recommended to congress by the
house committee on rules, as a result
of the preliminary inquiry, which
closed today, into the strike of mill
workers at Lawrence, Mass. That a
broad investigation would be recom-
mended was indicated after the testi-
mony closed and it was reported that
a resolution of the rules committee's
own making would be reported to
the house within a few days.

An investigation of the American
Woollen company was considered by
Democrats of the house long before
the Lawrence outbreak. The hear-
ings closed today after Representa-
tives of the American Woollen com-
pany had been heard. Before their
testimony was taken, Rev. Clark
Carter, a city missionary in Law-
rence, whose salary is paid by the
mill owners, was examined as to the
conditions in the city, as were several
members of the citizens' committee.
The minister said the work of the
union did in the mills was "perfectly
open for children to do." Lewis F.
Cox, postmaster of Lawrence, said
the description of incidents at Law-
rence were misleading. Others gave
testimony along similar lines.

States. The congressional committee
tonight announced the former presi-
dent led all other candidates by about
15 to 1. Part supporters did not
actively participate in the primary,
in discussing the question of illegal-
ity raised in connection with the
primaries. Governor Hadley who is
here tonight said:

"I have carefully examined the
provisions of the national call and
the call of the fifth district congres-
sional convention and they are in
full accord. I see nothing that could
be pointed to as an illegal procedure."

distinct provision that they do not
authorize the submission "to arbi-
tration of any question which affects
the admission of aliens into the United
States, or the admission of aliens to
the educational institutions of the
several states or the territorial in-
tegrity of the several states or of
the United States or concerning the
question of the alleged indebtedness
of the United States to any state or
monied obligation of any state to
the United States or any question
which depends upon or involves the
maintenance of the traditional atti-
tude of the United States concern-
ing American questions commonly
described the Monroe Doctrine."

NATIONAL CIVIC
FEDERATION

ROOSEVELT, BRYAN AND BERG-
ER SO BRANDED.

Accusation Made by Representative
Dies of Texas in House Thursday
—Says Roosevelt and Bryan Are
Both Socialists.

Washington, March 7.—Former
President Roosevelt, William J.
Bryan and Representative Victor
Berger, of Wisconsin, Socialist, were
branded in a speech in the house to-
day by Representative Dies of Texas,
Democrat, as being "among the
foremost enemies of free government
in America to day."

Mr. Dies charged that both Mr.
Roosevelt and Mr. Bryan were So-
cialists, and he coupled their names
with those of Mr. Berger and the
McNamara brothers.

The legislative activities of the
Wisconsin Socialist member were re-
viewed by Mr. Dies. These, he said,
among other things, included aboli-
tion of veto power of the president
and both the supreme court and the
senate and two measures, which Mr.
Dies charged, were intended "to
save from the clutches of the law
the McNamara brothers and others
who afterward might find themselves
similarly in the toils of the law."

"Mr. Berger, I may say, yields
to no man, living or dead, in his
desire to disrupt the constitution and
destroy the liberties of the people
under a representative Democracy.
In his constitution, he is a man of
chaos. Mr. Berger is as earnest, if
not as vociferous as the lion-tamer
who roars from the peaks of Saga-
more Hill."

Contrasting Col. Roosevelt and
Mr. Bryan, the latter, Mr. Dies said,
openly advocated Socialist doctrine,
while the former president professed
to be opposed to Socialism.

Roosevelt seeks to walk in the
path the Caesars trod," he said.
"Mr. Bryan will be content with a
million new subscribers for his pa-
per. Roosevelt wants to emulate
the bad example of Diaz of Mexico
and break down the constitutional
barriers against presidential succe-
sion. Mr. Bryan gives aid and en-
couragement to Roosevelt, as against
the Democratic party, and for the
principles of democracy as written
in the constitution, he offers no
word of encouragement."

Mr. Dies charged that Bryan en-
dorsed Roosevelt's policies while
condemning Speaker Clark, Governor
Harmon of Ohio, and Representative
Underwood, majority leader of the
house.

WANT PACKERS FREED.

Motion Made to Discharge Defend-
ants on Trial.

Chicago, March 7.—United States
District Judge Carpenter was asked
today to take the packers' case from
the jury and discharge the ten de-
fendants accused of criminal viola-
tion of the Sherman law, on the
ground that the government has failed
to prove the offense described in
the indictment. The motion was
made at the opening of court in
behalf of J. Ogden Armour, Arthur
Meeker, Thomas J. Connors, Louis
F. Swift, Edward F. Swift, Charles
H. Swift, Francis A. Fowler, Edward
Morris, Louis H. Heyman and Ed-
ward Tilden.

The day was occupied by the argu-
ments in support of the motion and
against it. It is expected that the
arguments will be concluded Satur-
day and that Judge Carpenter will
give his decision on the motion next
Monday.

DATE FOR FIGHT SET.

Chicago, March 7.—The Hugo
Kelly-Eddie McGoorty fight, set for
March 18, at Kenosha, Wis., accord-
ing to an announcement made here
today, has been postponed until
March 20, because of the proximity
of the McFarland-Burns fight, which
takes place there March 15.

SENATE ACTS
ON TREATIESFORERUNNERS OF UNIVERSAL
PEACE RATIFIED.

Only Three Votes Cast in Negative—
Modified Form Must Be Referred
to England and France—No Com-
ment by Taft.

Washington, March 7.—Stripped
of the clause which, it was claimed,
would invade the constitutional
treaty making power of the senate
and with many other limitations ad-
ded, the general arbitration treaties
between the United States and Eng-
land and France proposed by Presi-
dent Taft and Secretary Knox as fore-
runners of universal peace, were
ratified by the senate to day by a
vote of 76 to 3. The senators who
voted against the ratifications were
Lorimer, Marine and Reed. The
latter two are Democrats.

President Taft to night before
leaving on his speaking trip to To-
ledo and Chicago did not comment
upon the senate's action. It is
known that he had hoped to see the
treaties passed unamended. He had
declared publicly, however, that cer-
tain amendments would be objection-
able.

Virtually the treaties, by the sen-
ate's action, are "up in the air." In
their modified form they must be re-
ferred to England and France.

By the terms of an amendment
proposed by Senator Bacon of
Georgia, the senate consented to the
ratification of the treaties, with the
distinct provision that they do not
authorize the submission "to arbi-
tration of any question which affects
the admission of aliens into the United
States, or the admission of aliens to
the educational institutions of the
several states or the territorial in-
tegrity of the several states or of
the United States or concerning the
question of the alleged indebtedness
of the United States to any state or
monied obligation of any state to
the United States or any question
which depends upon or involves the
maintenance of the traditional atti-
tude of the United States concern-
ing American questions commonly
described the Monroe Doctrine."

As amended the treaties provide
that all differences with the excep-
tion of the subjects named in the
Bacon amendment, which it has not
been possible to adjust by diplomacy
and which are justifiable in their
nature, shall be submitted to arbi-
tration at the Hague tribunal.

Senator Lodge and others, who
fought the senate's action, today de-
clared that the alteration of the
much discussed clause 3 of article 3
would imperil the success of the
treaties.

No official expressions were made
at the state department.

Ambassador Bryce did not com-
ment, neither did Jules Jusserand,
the ambassador from France.

The final action came at the end
of a long day of debate and follow-
ing ballots on numerous amend-
ments. The administration senators,
though fighting on a close call on
the third clause and closely follow-
ing the roll call were surprised and
confused by the result. Their view
was that the elimination was achiev-
ed by the massing of a practically
solid Democratic vote with a sprink-
ling of Republicans.

Senators Penrose of Pennsylvania,
the Republican leader of the senate;
Hobart of Idaho, Gronna of North
Dakota, Gamble of South Dakota,
Stone of Missouri, Polinder of
Washington, Taylor of Tennessee
and Davis of Arkansas were absent.
Those of Stone, Gronna, Gamble and
Davis had been paired.

The treaty with England was first
taken up and the first vote came on
an amendment proposed by the for-
eign relations committee to eliminate
Clause 3 of Article 3—the provision
around which the fight has centered
—and on this the motion was car-
ried, 42 to 40.

Clause 3 would have submitted to
a joint high commission the ques-
tion as to whether or not a difference
was subject to arbitration and its de-
cision was made final. It was contend-
ed that that clause would take from
the senate its prerogative as part of
the treaty making power. The com-
mittee had at first recommended the
elimination of the provision and had
practically nullified that action by
bringing in an amendment to reser-
vation of the senate. The original
recommendation remained of the
calendar, however, and when the
voting was reached, proved too
strong to be pushed out of the way,
even by the latter action of the
committee.

Senator Root advocating ratifica-
tion without material amendment,
sought to have the committee's
original action set aside by giving
preference to the amendment of the
ratification resolution as the final
action of the committee, but the sug-
gestion was met with a vigorous pro-
test from all parts of the chamber,
and Senator Lodge, who on behalf
of the committee, had presented
both the amendment to the treaty
and the ratification resolution de-
clined to take the responsibility of
withdrawing the original action.

The result was received with
many quiet manifestations of satis-
faction, and the opponents of the
general purport of the agreements
then went to work with renewed en-
ergy to procure further modifica-
tions.

Senator Culberson presented an
amendment eliminating from the
terms of the treaty all questions of
honor or independence, as well as
questions affecting the vital inter-

ests of this country, or of third par-
ties, but it was defeated, 45 to 37.

An amendment by Senator Bacon
providing for a wider elimination
was at first lost on the vote of 41 to
41, but when the provision was pre-
sented in connection with the resolu-
tion of ratification it was adopted,
46 to 36.

After the first action on the Bacon
provision Senator Chamberlain of
Oregon, presented an amendment to
the first clause of the first article of
the treaty, providing that they
should not apply to questions affect-
ing the admission of aliens into the
United States, or the admission of
aliens to the educational institutions
of the states and the amendment was
accepted by an affirmative vote of
40 to 38.

As amended, the treaty then was
reported from the committee of the
whole to the senate and Mr. Lodge
offered his resolution of ratification
conforming strictly to the previous
action, and withdrawing, as unneces-
sary, the resolution providing for the
senatorial prerogative

Building for Permanency

Everybody likes to build, but nobody likes "repair jobs." They inevitably represent an additional investment without any addition to value. That point is worth digesting.

When you build, whatever you build, you like to build "for keeps."

Some people change their minds about styles in building; the same as wearables; our tastes develop and result in changes in our wants, but nobody changes his or her mind as to wishing to get the greatest possible endurance

or wear out of the things they buy, and especially is this true of building investments.

Those who build for time have a care in the selection of lumber. We had this in mind in buying our extensive lumber stock and we would be pleased with a chance to give you a figure on whatever lumber bill you may have in mind. The prices named will be satisfactory and the lumber qualities will more than meet your expectations.

RECEPTION FOR NEW MEMBERS

Affair at Brooklyn Church Largely Attended—Excellent Musical Program Rendered.

More than two hundred people attended the reception given at Brooklyn M. E. church Thursday night for the new members, who have come into the church through the revival just closed. Not only were the new members made to feel the cordiality of the church, but the affair fostered a spirit of Christian friendship and co-operation among all present. That the church was greatly blessed by the revival and is entering on a new era was evident on every hand. The members of the Men's Bible class acted as a reception committee and saw that all were made acquainted. They conducted the people as they came first to the main auditorium of the church where the musical program was given by Harold Johnson's orchestra and other musicians, with readings by Miss Minnie Alkire. The orchestra, which consisted of ten pieces with C. A. Sheppard and Miss Bessie Read assisting, gave several splendid numbers and Mr. Johnson and Mr. Baylac appeared in pleasing solos. The appreciation of the audience for the singing of Mrs. A. M. Roberts was shown by the number of times she was called back to the platform. All in all, this program was one of excellence, being carried out as published in the Journal of Thursday with the exception of the solo by Mrs. J. Bart Johnson, who on account of illness in the family was unable to attend. The readings of Miss Alkire were also thoroughly enjoyed and the numbers by J. Philip Read and Miss Clara Hanson were rendered in excellent style. At the conclusion of the program those present mingled together socially and later were served elegant refreshments by the ladies of the Aid society. The musicians and all who took part in the program were served an excellent oyster supper at special tables in the balcony room, while the others present were seated in the chapel, where Mrs. Eva Potter, Mrs. J. H. Clements and Mrs. J. W. Moon presided at the punch bowls. Those in charge of the serving upstairs were Miss Nellie Glenn, Mrs. Hy. S. Alkire, Miss Fay Alkire and Harry Clements. For the occasion the church was attractively decorated with potted plants and cut flowers. Flags were also artistically used in carrying out the decorative scheme.

INTERCOLLEGIATE DEBATE UNCERTAIN.

In all probability the intercollegiate debates of the Prairie state league, will not be held, owing to the action of Millikin and Illinois Wesleyan. These two schools, near the first of the year filed objection to the question, which was decided upon at the meeting of the league in Decatur and agreed to by them. Numerous letters have been exchanged with Illinois college representatives relative to the matter. The Illinois boys for a long time refused to make any change in the question until recently, when it became apparent that if there was to be a debate at all it would be necessary for them, although justified in their previous actions to accede to some extent to the wishes of the other competing schools.
About two weeks ago Prof. Carl E. Robinson of Illinois wrote to the Millikin and Wesleyan debaters suggesting the question of direct vote of senators. He has received no reply from either school. The debates of the league were to have been held this month and even though an agreement could be reached between the colleges, little time would remain for preparation. It is very probable therefore that the debates of the Prairie state league will not be held this spring.

SERIOUS ACCIDENT

Dennis Hull Loses Two Fingers and a Thumb as Result of Hand Catching in Circular Saw.

Dennis Hull, a carpenter at the State School for the Deaf, met with a serious accident Tuesday morning which cost him the loss of two fingers and one thumb on his left hand. It is not known just how the accident happened, but Mr. Hull who uses the saw a great deal, was busy at work when those who were near heard him scream and ran to his assistance. His hand had come in contact with the saw in such a manner as to sever the members almost completely from the hand. He was taken to Dr. J. A. Day's hospital where it was necessary to amputate the first and second fingers at the palm of the hand and the thumb at the first joint.

Mr. Hull resides at 402 Caldwell street and has been a well known and highly valued carpenter at the institution for a number of years. His many friends will sympathize with him in his misfortune, which will greatly handicap him in his trade.

ANSWERS "CHALLENGE"

McKinley Favors Selecting Delegates by Primary When They Are Fairly Conducted.

Washington, March 7.—Representative McKinley, director of President Taft's campaign for re-nomination to day gave his answer to Senator Dixon's "challenge" that the candidacies of President Taft and Col. Roosevelt be submitted to the test of preferential primaries. Senator Dixon is chairman of the Roosevelt executive committee.

Director McKinley says he is in favor of selecting delegates to the national convention by the primary system, wherever primaries are legally provided, "fairly conducted and surrounded by the restrictions of law," and points out that all but seven states have made provisions for primaries.

"I am still at a loss to know whence you derive your authority, but I am willing to waive that point," Mr. McKinley says. "The question of selecting representatives of the party belongs primarily to the several states and congressional districts, and if the party is to legislate it should be in its national convention. The party's form of government should be the creation of laws and custom and not of caprice. I do not favor changes in the rules of the game while the game is in progress. To propose the 'recall of conventions' in the midst of a campaign is contrary to the dictates of fair play."

STRIKERS' CHILDREN.

Forty Sent to Philadelphia to Be Cared For.

Philadelphia, March 7.—Forty children of striking textile operatives of Lawrence arrived here to night to be cared for until the labor troubles in the Massachusetts city are over. The youngsters were conveyed to the labor lyceum where they were given a feast by being turned over to families that have volunteered to care for them. To day's arrivals form the first installment of the 200 children which are to be cared for here, according to a member of the reception committee.

BRYAN IN NORTH DAKOTA.

Fargo, N. D., March 7.—William J. Bryan made four speeches here to day. Arriving early the Nebraska addressed the gatherings, previous to a Democratic mass meeting to night. Mr. Bryan first addressed the students of Fargo college, going from there to a meeting of the state Democrats.

Criticizing President Taft for an alleged misquoting of Abraham Lincoln, Mr. Bryan said: "Mr. Taft's whole environment has been that of the dollar and he has never had any real knowledge of men."

WILSON IN MARYLAND.

Annapolis, Md., March 7.—Gov. Woodrow Wilson of New Jersey to night addressed the house and senate of Maryland and was the dinner guest of Governor Goldsborough.

In the course of his address, the governor said the constant agitation for the initiative, referendum and recall he felt sure is due to the need of really representative government and is only acute where the people felt that they are not actually represented.

TALKS FOR ROOSEVELT.

Minneapolis, March 7.—Gifford Pinchot opened the state campaign for Theodore Roosevelt to night at a banquet of the former president's adherents. During the day he addressed the students of the University of Minnesota. He left to night for Washington.

Mr. Pinchot touched upon the third term "tradition," declaring that Mr. Roosevelt in no way had the machinery of a president who has been in office two consecutive terms to effect his election. He spoke highly of Senator LaFollette, likening him to the captain of a great football team, who is taken out of the game by the coaches because of injuries and through no fault of his own.

FOR TO DAY AND TOMORROW. Special prices will be made on all new spring millinery AT HERMAN'S.

SOUTH POLE EXPLORERS.

Nothing Heard From Scott, Supposed Discoverer.

London, March 7.—While intense interest has been aroused in the results attained by the South Polar expeditions under command of Captain Roald Amundsen, the Norwegian explorer, and Captain Robert F. Scott of the British royal navy, respectively, which are returning from the antarctic regions, despatches reached here on the subject, are conflicting. Captain Amundsen has arrived at Hobart, Tasmania, on the Steamer Fram and according to the first word from that port he declared that Captain Scott had reached the pole. It is to a late hour at night, however, no word to that effect has come to Mrs. Scott, wife of the British explorer who still doubted the achievement and reiterated her hope that the news would prove true.

Nor did Lieut. Evans, the London secretary of the Scott expedition, receive any direct word of Captain Scott's reported success and he assumed that he would be among the first notified probably by a message from Capt. Scott himself, through the agency of Captain Amundsen, if it had happened that the two explorers had crossed tracks after their dash to the pole.

With reference to the results Amundsen expedition, despatches reaching London from various points gave early reports that the Norwegian explorer had not been successful in his quest. Later, however, a Copenhagen despatch said the Social Democrat had published news from Christiania that a telegram from a member of the Fram expedition declared that Amundsen had reached the south pole. Other reports seem to confirm this. Reports of Amundsen's success appear at the same time to have disposed of the rumor that Captain Scott had reached the pole. One of the authorities here were inclined to credit this latter report until confirmed.

PARSONAGE TRUSTEES.
Through papers filed with J. A. Rawlings, circuit clerk, M. S. Seymour, Charles Criswell, Samuel Darley, George Oxley and Edward Scott are named parsonage trustees for the Providence and Dublin Methodist church, the two churches being under one jurisdiction.

MAY SOON END STRIKE.
Lawrence, Mass., March 7.—Prospects of a settlement of the textile strike appeared brighter to night in the view of a committee of strikers from the American Woolen company's mills who returned from a conference with officials of the company in Boston to day.

Closing Out All of Our Hosiery

The Watson Glasgow Co. (the makers of Kenlock Hose) have retired from business and we cannot in consequence secure orders.

This means that in a short time we would have only a broken stock of sizes and numbers.

Out stock is kept complete by reordering once a week. Rather than go through the season with either half a stock, or a mixed stock, which is almost as bad, we have decided to make prices that will close out our present brand at once.

This means the closing out of each and every pair of hose in the house.

The "Kenlock" we have always considered one of the best on the market.

We are sorry to give it up, but there is another that we want to tell you about later on—but at present we want to get rid of the "Kenlock."

Our Hosiery stock is now complete in every particular. The spring and summer numbers are here in Silk, Lisle, Gauze Lisle—all colors and sizes. Priced for this closing out sale:

All 25c hose 10c, 3 pair for 50c. All 35c hose 25c straight.

We are negotiating with one of the best known manufacturers of Hosiery in the country. A full and complete line will be ordered irrespective of our Kenlock hose on hand.

BOOMING CLAY PRODUCTS.

Chicago, March 7.—With "back to brick" as their slogan, three thousand clay workers and brick manufacturers have come to Chicago from all parts of the United States to attend the annual convention of their national association. Alarmed at the great increase in the use of cement and concrete in the building industries, the clay workers have decided to expend a half million dollars to extend the "back to brick" propaganda throughout the country. The campaign was formally launched with the opening today of the National Clay Products Exposition in the Coliseum in this city. The display consists of brick structures, sewer pipes, pottery and other things along that line, while one of the chief features is a complete brick bungalow, erected on the exposition floor at a cost of \$3,000.

NEW BRUNSWICK LEGISLATURE.

Fredericton, N. D., March 7.—The 45th session of the twelfth legislative assembly of New Brunswick was opened this afternoon by the new lieutenant-governor, the Hon. Josiah Wood. The opening was accompanied by the usual ceremonies. The speech from the throne forecasted an interesting and important session. Special attention is to be given to measures relating to the development of the Province along industrial and other lines. One matter of importance will be the enacting of legislation to put into effect the new arrangement under which the Dominion and Provincial governments will co-operate in New Brunswick's immigration work. Railway measures also have an important place on the agenda. Special legislation will be sought in aid of the St. John Valley railway in the construction of the Minto and Fredericton branch. Authority will be sought also for the construction of a branch line of the Grand Trunk Pacific from Nappadogan to connect with the St. John Valley railway, thus giving an entry to the port of St. John.

GUARD RAILWAY.

Peking, March 7.—The diplomatic representative of the foreign powers had a conference to day and decided to continue the guards along the railway to Ching Wang Tao, in spite of the fact that the river is now open from Tien Tsin to the sea. Additional soldiers will be necessary, as the effect of the present guard is only moral. Major Armstrong, in command of the American troops from Manila has only forty men left at Tien Tsin and is anxious for at least 200 of his troops now at Peking to return. Minister Calhoun hopes to get a detachment of 100 or 200 marines from the cruiser Cincinnati and it would then be possible for the infantrymen to proceed to Tien Tsin.

The State School for the Blind has three big libraries and these will receive the careful attention of the visitors.

The next visit will be to the State School for the Deaf. Here three or four classes will give exercises to demonstrate the character of the work done and other things of interest to the guests will be pointed out. The school has a splendid library and this will be thoroughly inspected.

The company will next be guests of Miss Welber, city librarian, and among the number will be Miss Francis Mathis of St. Joseph, who for the past three months has been doing experience work at the local library and went to St. Louis to join the party.

It is a custom each year for the members of the state library classes to make an annual tour and spend some time at the larger libraries of the state. A new library has just been completed at St. Louis and the members, which include about forty young ladies, visited there for the past three days. They are accompanied by Albert S. Wilkinson, assistant director, and other members of the faculty. From Jacksonville the librarians will go to Springfield.

There may or may not be a miners' strike April 1st, but certain it is that the mines will shut down at that time for a month or two pending a wage agreement. All manufacturing plants are storing coal and the individual consumer must do the same. Protect yourself by storing enough coal to last until early summer.

GOLDEN WEDDING

Mr. and Mrs. O. B. Holmes Celebrate
Fiftieth Anniversary of Marriage
Wednesday at Home Near City.

The golden wedding of Mr. and Mrs. O. B. Holmes, two of the most
highly respected citizens of Morgan
county, was observed Wednesday at
their home, five and a half miles
southeast of Jacksonville. Long
time friends, neighbors and relatives
early in the day assembled, visited
and talked over old times, enjoying
themselves thus in a social manner
until they were called to a sumptu-
ous dinner, which was too great to
describe and to which all did full
justice.

In the afternoon the company
gathered to listen to reminiscences
of old times. A poem was read,
which was written by Mrs. Wash-
ington, wife of the former pastor of
the golden anniversary of the
father, Peris Holmes, which took
place Nov. 2, 1873, and for the an-
niversaries of Rev. D. D. Holmes
Sept. 19, 1898, and O. B. Holmes,
March 6, 1912, making three golden
weddings in the Holmes family in
the same community not a mile
apart. Another poem was read,
which was written for the occasion
by F. M. Coard who has been a close
friend of the family for over forty-
five years.

In the evening the young people
gathered at the home and the hours
proved most delightful. Mr. and
Mrs. Holmes received during the
day many beautiful presents as lov-
ing remembrances from friends and
were heartily congratulated.

Those present from a distance
were Marshall Holmes of Chicago,
Mrs. Rosa Waters and son Carl of
Modesto, and Mr. and Mrs. Remus
Loyd of Alexander. Those attend-
ing from Jacksonville were Mrs.
Fred Sibert, J. D. Adams, Mr. and
Mrs. F. M. Coard and Mrs. Ransom.
The poem written by Mr. Coard
was as follows:

Fifty years is a long time
To walk together hand in hand,
And still when we stop to think
It seems but a span—
It's only occasionally a family
Celebrates the golden age,
But this is a rarer case, the father—
And two sons, register on the golden
page.

The rising sun of coming spring-
time,
Soon lighted up the day,
Flowers scattered along the road-
side,
Made it more cheery, all the way,
The rose with its perfume and
beauty.

Sometimes has its piercing thorn,
The family or individual who has not
is unknown and yet unborn.

The nugget and gold dust must
pass through the crucible to test,
So as we pass down these years,
The community sees in us, to con-
demn, or to bless.

Blessed not for our wealth,
For that will fade away
But for uprightness by redemption,
Which will last through endless day.

Down these quiet unassuming years
Would consult and gently seek,
The sire's sturdy smile to cheer,
The one who still retains the dimples
in her cheek,
Finally the time will come,
To meet both the young, and age,
On that bright and golden shore
To be recorded on that Heavenly
Golden page.

BUILT UP.

How Richmond Hill (N. Y.) Man Got
Rid of Colds.

The best time to do things is right
when they need to be done.
That is why we are urging you to
build yourself up right now, before
spring passes. If you are weak and
worn out, nervous and miserable,
you ought not to delay another day,
but start now to taking Vinol, our
delicious cod liver and iron prepara-
tion without oil. The longer you
wait, the more unnecessary trouble
you have.

We say "unnecessary" because we
know Vinol will build you up and
make you strong. Here is what M. E.
Leggett of Richmond Hill, N. Y.,
says: "Last spring when I was badly
run down and had a cold I used Vinol
with the greatest satisfaction. It
not only cured the cold, but built up
my strength and made me feel much
better than I had for a long time."

There is no risk—we guarantee
Vinol to give satisfaction, and you
get your money back if it does not.

GOOD ROADS.

We have just had our road elec-
tions all over the county and all over
the state, for that matter.

We have elected and re-elected
26 men, 13 clerks and 13 commis-
sioners. The very natural thing to
do now is to go to sleep on the road
question until next spring except to
wake up occasionally long enough to
give the commissioners a good sound
tongue lashing and—generally very
unjustly—forgetting that we have a
very important question for the
second Tuesday in March as well as
for the first.

The law requires each clerk to
present to his commissioners an item-
ized statement of receipts and
disbursements and it is the duty of
the commissioners to publish the
same the second Tuesday in March.
The word miscellaneous has no place
in an itemized account. This is a
very important road question and
we are looking forward to it with a
great deal of interest.

OLARK'S BIRTHDAY.

The Anniversary Remembered by
Friends of Speaker.

Washington, March 7.—Speaker
Champ Clark to day celebrated his
62nd birthday anniversary and put
strenuous 15-hour handshaking and
acknowledgement of congratula-
tions. The day began with a
temperate reception by his own of-
fice force. It was followed by a
demonstration on the oor of the
house, from which the speaker fled,
later by the presentation of a huge
bunch of carnations by the page and
messengers of the house, and wound
up to night with a great mass meet-
ing in Convention hall, which cheer-
ed every attempt of the presiding
officer of the house.

The demonstration in the house
was led by Representative Rainey of
Illinois, Democrat, who eulogized the
record of the speaker. He was
followed by Representative Austin
of Tennessee, Republican, and former
Speaker Cannon.

STEPHENSON ELECTION CASE.
Washington, March 7.—The val-
idity of Senator Stephenson's election
will be voted upon by the senate on
the legislative day of March 25.

A majority of the senate committee
which investigated the charges of
bribery and corruption against the
Wisconsin senator exonerated him,
but five members of the committee
held that the election was tainted by
gross fraud.

Consideration of the
case in the senate brought out a hot
fight against Senator Stephenson re-
taining his seat.

COST OF LIVING.

Washington, March 7.—An ap-
propriation of \$20,000 for the first step
in carrying out President Taft's plan
for an international conference on
the cost of living was proposed to-
day in a bill by Representative Sul-
zer of New York. The object is a
world-wide study of the rise in
prices of the last few years, its
cause and remedies.

INCREASE CAPITAL STOCK.

Whiting, Ind., March 7.—The
stockholders of the Standard Oil
company of Indiana met here to day
and voted to increase the capital
stock of the Indiana corporation
from \$1,000,000 to \$3,000,000.
After the increase had been referred
to the state authorities and a cer-
tificate issued by the secretary of
state, the directors of the Standard
Oil company of Indiana, will direct
the distribution of the stock of the
company in accordance with the re-
organization plan approved by the
United States court.

ceived invitations to the wedding of
Miss Clarice Parsons and Mr. Loren
Earl Barton, which is to take place
Saturday evening, March 16, at the
home of the bride in Homer, Ill.
Miss Parsons is a daughter of Rev.
and Mrs. N. E. Parsons and attend-
ed the Illinois Woman's college in
this city. The groom is a young
business man of Elwood, Ind. The
at home cards read "after April 12
at Elwood, Ind."

EVERGLADES HEARING.

Washington, March 7.—"It would
cost \$150,000 and take a year or
more for the government to make a
complete report on the feasibility
of draining the everglades and to
make a plan for that project," C. G.
Elliott said to the Moss investigating
committee to day. Mr. Elliott, who
was chief drainage engineer of the
department of agriculture until his
dismissal by Secretary Wilson, was
on the witness stand in the ever-
glades hearing.

Representative Mayes of Florida
asked the question which brought
that statement from Mr. Elliott. The
witness had been on the stand all
day explaining the technical side of
the controversy.

Mr. Elliott will resume the witness
stand to-morrow after Representative
Clark and some others from
Florida testify as to what they
know of the suppression of the ever-
glades report.

PLAYGROUNDS.

The Womans Club on Saturday
presents two talks by Mr. Graham
Romeyn Taylor on the playground
movement. This movement in in-
fancy here and Mr. Taylor has been
asked to give us information, from
his large experience, in regard to the
proper way in which to conduct
playgrounds. The work just begun
in our city is able to enjoy the pri-
vilege of a playground, and every
parent in Jacksonville should feel a
vital interest in the matter.

We urge upon all parents the im-
portance of attending Mr. Taylor's

gregational church, which will be

tive. Two sizes, 50c and \$1.00.

ARE PAYING CASH.

A prominent banker of this city
recently called attention to the gratify-
ing fact at the many sales being con-
ducted these days the amount of cash
paid is far in excess of what it was
even a few years ago. It was the
very general custom to grant six
months time with a liberal discount
for cash but now cash is genera-
lly required or notes drawing from date
of sale and not many are given. At
the Middleton sale totaling some
\$8,000, only one note was given.
This certainly speaks well for the
condition of the farmers of this vi-
cinity and is quite gratifying.

WEDDING ANNIVERSARY.

Mr. and Mrs. W. O. Coffman of
South Prairie street, were married
just ten years ago March 6th and
on the evening of the anniversary a
number of their friends dropped in
to remind them of it. The worthy
couple were the recipients of sev-
eral substantial reminders of the
day and in return made all felt at
home. A nice repast was served and
all had a most enjoyable time. All
their friends unite in wishing them
many more anniversaries of a happy
day.

GIVES PICTURE TO LIBRARY.

Miss Mary Rhoads has just pre-
sented the Children's room of the
public library with a beautiful copy
of St. Christopher from Titian's
fresco near the stairway of the
Doge's palace in Venice. St. Chris-
topher is said to have lived in Syria
and to have been very large and
strong. To show his sorrow for his
sin he carried pilgrims across the
river where there was no bridge. One
day Christ came to him and asked
to be carried over, but his weight
became greater and greater until St.
Christopher nearly perished in the
middle of the stream. When they
reached the other shore in safety,
the child said to St. Christopher,
"Marvel not, for with me you have
borne the sins of the whole world."
The birthday of this saint is cele-
brated in the Roman, Anglican and
Greek churches.

Crisco pastry has a flavor which is impossible with

Motherhood

The highest point of woman's happiness is reached only through motherhood, in the clasp of her child within her arms. Yet the mother-to-be is often fearful of nature's ordeal and shrinks from the suffering incident to its consummation. But for nature's ills and discomforts nature provides remedies, and in Mother's Friend is to be found a medicine of great value to every expectant mother. It is an emulsion for external application, composed of ingredients which act with beneficial and soothing effect on those portions of the system involved. It is intended to prepare the system for the crisis, and thus relieve, in great part, the suffering through which the mother usually passes. The regular use of Mother's Friend will repay any mother in the comfort it affords before, and the helpful restoration to health and strength it brings about after labor. Mother's Friend is for sale at drug stores. Write for more facts. For expectant mothers which contains much valuable information, and many suggestions of a helpful nature.

Some Sink Sense

No place in the home gathers grease as quickly as the kitchen sink. Gold Dust washing powder, however, has the peculiar quality of dissolving and cutting grease and if, after each dishwashing, a small amount is made in the dishpan with warm water and Gold Dust, and the sink thoroughly rinsed with these suds, the last particle of dirt and grease will be removed. The sink pipe will never become clogged with grease if Gold Dust is used. A few drops of hot water are used for cleaning the sink morning and evening.

TO WELCOME TAFT

Arrangements Made at Toledo to Entertain and Receive President.

Toledo, March 7.—Final arrangements have been completed for the entertainment and reception of President Taft here to-morrow. The president will arrive from Washington at 3:40 p. m. and will be met at the station by officers of the Toledo Commerce club, Battery B, which will fire a salute of 21 guns, troop D, and mounted police.

A parade will be formed at the depot headed by the News Boys band and the participants will march to the Nicholas building, where a reception will be held in the lobby from 4:15 to 5:30.

At 5:30 the president will be the guest of Mayor Whitlock and officers of the Commerce club at a dinner at a hotel. In the evening at 8:15 the president will speak at the Coliseum where seats have been arranged for 3,500 people. The president's private car will be at a Lake Shore train, will leave for Chicago at 11:15.

New England Trip.

Washington, March 7.—Plans for President Taft's trip to New England practically were completed to-day. The president will make at least a half dozen speeches in Boston and two in New Hampshire and will ride at the head of the St. Patrick's day and "Evacuation day" parade in Boston. His engagements in Boston include breakfast at the City club, an address to the Massachusetts legislature, an address at the banquet of the Charitable Irish society and a "look in" upon the diners of the Yale club, the Boston paper trade association and the bank officers' association. He will speak in New Hampshire at Nashua and Concord. He will leave Washington on Sunday night, spend Monday in Boston, Tuesday in New Hampshire and probably back in Washington on Wednesday.

ONE THING LACKING.

The hope of a prosperous future of our nation is a proper Christian civilization. This is to be effected through the instrumentality of the church and our Sunday schools. One has defined a Sunday class, "The Church at Work." It will be admitted by the people generally that the Sunday School aside from the home should be one of the most important factors in producing a reign of righteousness throughout the land. To do this work, the bible is to be the text book and its teachings thoroughly studied. This even as a matter of business implies suitable classification and proper methods. In charge of officers and teachers that will make them effective. A lack here is quite often the "One Thing Lacking," there is in many of our Sunday schools but little known as now conducted, about the bible, as a book. This was made very plain by our state superintendent Mr. Blair in his address at the Northminster church recently. Lesson preparation is lacking in many of our Sunday schools merely for the want of some uniform system of study embracing definite things to be learned at home about the lesson and bible each week preceding the recitation. In the bible class, taught by S. R. Capps, each member is given at the close of the recitation a written question on the next Sunday's lesson to be answered by the receiver. In next Sunday's lesson the title is "Jesus the Healer." In which he has given for the above title, found in Mark 1:29-41, the following written questions to each member to be answered by the class next Sabbath:

1. Describe a Jewish synagogue?
2. What was remarkable about the healing of Peter's mother-in-law?
3. Does our lesson support the doctrine of clerical celibacy?
4. What is meant by demoniacal possession?
5. Are we anything like this at the present time?
6. Did the human nature of Christ require special seasons of prayer?
7. Why was Jesus so popular at this time?
8. What did Jesus consider the most important work of his mission?
9. What is the Golden Text?
10. Does Christian Science give undue prominence to bodily healing?
11. Describe the disease of leprosy?

Now is not the plan here pursued a good one and if so why not the whole school, except the primary, adopt it, say four or five questions to each. It beats a mere lecture to the class. It is the drawing out process rather than the imposing. It creates an interest in the school; it means business. Why not have a called meeting and adopt some definite work or system of bible and lesson study that will tend to bring this to pass. Piousness once had diphtheria, but they have been laid aside long ago; too slow for this age and often miss fire. The above advice may not be needed in every school.

President Taft to-day received the following cablegram from Dr. Sun Yat Sen at Nanking:

"The president of the republic of China begs to thank the president of the United States of America for his generous appeal on behalf of the Chinese famine districts and to state that such appeals on behalf of humanity command the deepest gratitude of Chinese Republican government and entire people."

STANDARD OIL STOCK

Shares Reach Record Breaking Price of \$890—Trading in Stock Was Active.

New York, March 7.—Shares of the old Standard Oil company of New Jersey reached a record-breaking price on the curb to-day, selling at \$890 each, a rise of 35 to 40 points over the previous day and an advance of almost \$200 from the price at which it was quoted when the United States supreme court ordered the company's dissolution.

Trading was active, comprising, it is said, more than 250 shares. Brokers known to be in close touch with the company were open buyers, but either could not or would not throw any light on the reasons which caused this security to rise to new high points. Ever since the parent company disintegrated into some thirty-odd subsidiaries, there have been rumors of the ripening of a "melon" by the old New Jersey company. Credence attached to these rumors by reason of the fact that several of the constituent concerns already have made handsome "extra" disbursements.

No news touching upon the matter is obtainable at the company's office; where the utmost reserve prevailed.

To-day's price of the stock is much more than double that of the lowest reached in the panic year 1907, when it sold down to \$390 on unloading by frightened holders. On the assumption that the Rockefellers own considerably more than a majority of the stock of the company, which consists of \$100,000 shares, the fortunes of that family may be said to have increased more than \$100,000,000.

PREPARING TO MOVE.

Rev. W. R. Butcher is packing his household goods and awaiting a favorable day for shipment to Chapin, from whence they will be conveyed overland to Joy Prairie, the place of his new pastorate. Joy Prairie while a country settlement a few miles out of Chapin, has a flourishing church organization in which exceptional interest is taken by the residents of the community, evidenced by the fact that for several years they have endeavored to secure the services of Mr. Butcher who only recently decided to accept the pastorate. For some time past he has been conducting the Sunday day services at Joy Prairie, kindly consenting to return and hold the usual Sunday evening exercises at the Congregational church here until such time as he and his family might move from our city. The very pleasant relations that have for so many years existed between church and pastor, will soon be severed and in speaking of this change to Record he says: "It votes the sentiment of the Christian people and representative citizens of our community in saying that the removal of Mr. Butcher and his family from among us will be a real loss, not only from the standpoint of his position as a moral factor represented in church work, but also because of the loss to various social and church organizations that will be sustained in the departure of his family. Mr. Butcher has ever been active in all that pertained to the good and betterment of his community and in these things none were more intelligent or comprehensive than he."

THE PEOPLE ALL

In Chorus Cried, Give Us Newbro's Herpicide.

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found, who will deny that NEWBRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means a destroyer or killer of "Herpes." Now "Herpes" is the scientific name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp, and falling hair; this is the microbe that NEWBRO'S HERPICIDE promptly destroys; after which the hair grows. Sold by leading druggists. Send for literature for sample to The Herpicide Co., Detroit, Mich.

Anna Held's Opinion of An Automobile

Anna Held's Opinion of an Automobile.

Arthur Bunker Motor Car Co. Seattle, Washington.

Gentlemen: I cannot help but say that the big, luxurious Oakland car that took me so easily and comfortably around my beautiful boulevard is the easiest riding American built car I have seen. Of course, my foreign machines cost me thousands of dollars, but this is the first American built car that I ever thought their equal.

Respectfully yours,
Anna Held.

You will note by Miss Held's letter that she has had experience with foreign built cars which cost her thousands of dollars. You will also note carefully that the Oakland is the first American built car that she ever thought the equal of the high priced foreign made cars. This is one of the best tributes that has ever been paid the Oakland, and, coming as it does from a woman who is in a position to judge of the comparative merits of high priced cars and medium cars, it should carry great weight.

Grain Letter.
Chicago, March 7, 1912.—Wheat—Wheat rather narrow with traders evening up and waiting for the farm reserve report due tomorrow. Certain heavy sales were attributed to leading local mill interests. Foreign news was moderately bullish, but had little effect on prices. No important developments can be expected until after the government figures.

Corn—Corn showed some strength on unsettled weather, but was subject to heavy pressure of realizing sales for the account of important bull professionals. The local sentiment appears to be that the government figures on farm reserves will exceed private estimates. A narrow market can be expected until after the figures are out. Unless the government figures are nearly as bullish as the private estimates, corn will probably seek a lower level temporarily.

Oats—Extremely dull, following in a moderate way the action of other grains. Light receipts and a fairly good demand make it easy to maintain future prices, which are all less than cash values. The government figures will be awaited with much interest, but unless they are extremely bearish, there is no reason to anticipate much setback. We believe investments in July oats would pay moderately, while September, in view of the high price of everything else, appears to be on the bargain counter. Professional speculators may raid the market and cause some depressions, but we believe deferred futures bought and well protected will eventually pay handsome profits.

Provisions—Weak and lower all around. Continued heavy hog receipts encouraged local speculators to aggressively bearish. The failure of the hog movement to let up at all is discouraging to the provision investor, in spite of the relative cheapness of this article as a food.
